Veteran Dog

- **Dogs must enter the Veteran Division after their 9th birthday. Dogs in this division are given the allocated Veteran course times.**
- **After their 12th birthday dogs must enter the Skilled Category, Veteran Division.**

Intro Classes: The Intro level will be a shorter course than Novice. The only Intro level class with weaves will be Intro Weavers and it will have one set of 6 poles. No other classes will have weaves in them. The Intro level will have no tunnel/contact discriminations.

The Intro level is a full titling level with the basic titles at 30 points, Outstanding Performance at 60 points (100 points for Regular) and Superior Performance at 100 points (200 points for Regular).

In Intro, dogs may jump any jump height lower than their regulation height. **Dogs may NOT jump higher than their regulation height, and the Maximum Jump height for intro is 16”.**

You do NOT have to start in Intro, you can start your dog's NADAC career in Novice!

DOUBLE RUN FORMAT

We will run the same course twice.

For example: Elite Jumpers would walk, then run Round 1, then automatically go into Elite Round 2, running the same course. We then build Open, walk through, then run, then go into Open Round 2 running the same course. And so on, with Novice and Intro.

There will be an option for a 4 minute break between rounds

TRIAL INFORMATION

- **Please plan to attend the morning briefings to learn about specific site and NADAC rules.**
- You will get an initial confirmation of your entry after it is processed. You'll receive a final confirmation the weekend prior to the trial. With that final confirmation of your entry, there will be an information letter. Please read it thoroughly, as there will be site instructions.
- Dogs MUST be on leash at all times unless competing or warming up.
- There is plenty of crating space in the building as well as parking close to the building to crate out of your vehicle if desired. Please plan to bring a ground cover/mat to place under your crates.
- The trial you are entering is using slatted contacts. For many years slats have NOT been used in NADAC trials. The reasons for this is that with the lowered height of the NADAC A-frame, and the advent of rubber coated equipment, NADAC found that slats became entirely useless in the sport. As the dogs had more than enough grip with the rubber coatings. NADAC was the first organization to use rubber contacts, and we feel that the removal of slats was the correct and logical next move. The reason we are allowing slats is to encourage new clubs to try NADAC, this way they do not have to purchase a specific set of equipment for NADAC. And to help struggling clubs who can't afford the NADAC spec contacts. The new generation of slats are not a danger to dogs like the old generation was, so while they are not needed for dogs competing in NADAC, it won't hurt to have them either. It should be noted that any Regional or Championship event that you attend with NADAC will be using non slatted contacts.
